Â Administrative Error

Â

It has, within the past two days, been brought to our attention, that as a result of an administrative error, we had published an incorrect prize list on the NAYBC website. This in turn involved the Tournament Committee paying out prizes to the winners that were double the amounts that should have been paid.Â This error only came to light following some cheques that had been returned by the Bank.Â

We sincerely apologise for the error and the concerns/issues that this may have caused.

Over the 10 years that this tournament has been run, this is the first payment issue that has occurred which we deeply regret.Â Hopefully, as this was a genuine mistake, the prize winners will understand and respond sympathetically.Â
