'WHITE LICENCE' ANNOUNCEMENT

Â

In our continuing efforts to update our member services, the safeguarding and protection of our students and pupils, especially children, is of paramount importance.

We need to maintain our credibility within the wider sports community and raise awareness for everyone who wishes to have lessons and coaching sessions, that they do so in a safe and protected environment.

We have started the process by introducing the annual license renewal which enables us to check individual status via the DBS online update service and provide insurance cover for coaches, instructors and officials alike.

In the light of recent events in other sports we have decided to speed it up further, by bringing forward the deadline date for the renewal of all old 'White Licenses' to August 31st, 2017.

This means that all white license holders must apply for a new license to begin no later than 1st September 2017 in order to continue coaching.
